

SPACECRAFT

CASE STUDY

Location: Broadgate Tower, London EC2A
Occupants: 300
Value: £250,000

Architect: HLW
Scope: Storage and Loose package
Brands: Knoll, KI, Vitra, Cherner, Max Design

Challenge Liquidnet moved to an iconic building in the heart of Liverpool Street. The move aimed to continue the prestigious name that the company held enforce the global branding. The furniture needed to harmonise with the design to utilise the views the floor offered as well as maintain the quality of the hard earned reputation, all within a fast track programme that the project team were working to.

Solution Knoll, Vitra and Cherner pieces introduced the quality to the space. Meeting suites with Eames chairs held a prestigious feel complimented by the views at the front of the space. With lead time pressures it was essential to focus on the right product at the early stage to accommodate manufacturers lead times.

SPACECRAFT

CASE STUDY

Outcome Liquidnet praised the work of the design team and its partnership with Spacecraft. Added pressure to deliver a quality space with limited time was managed and made successful by working closely with the designers at HLW and the client allowing us to focus decisions. A space that exceeded the clients expectations which we look forward to expanding...
