**Location:** Threadneedle, London  
**Occupants:** 250  
**Value:** Undisclosed

**Architect:** HLW  
**Scope:** Systems, Storage, Seating and Loose packages  
**Brands:** Knoll, Vitra, KI, James Burleigh, Kusch, HBF

Leading Financial Provider

**Challenge** This leading financial companies move was not only influenced by the end of their existing lease but to assist the new image and branding of the organisation whilst relating to the parent company. The space needed to impose a high end client facing meeting suite which reflected the company. In addition the various breakout and café areas need to create a comfortable environment for its staff

**Solution** Knoll studio was used throughout the scheme to inject quality and high design. This was complimented with other classic pieces from Vitra in breakout areas. The meeting suites incorporated the use of veneer meeting tables and leather seating to give a depth of elegance and stature to the brand.

Leading Financial Provider

**Outcome** A stunning scheme that the institute could impress their clients with. Staff indulged in the workplace as a welcomed change to a once traditional working environment, allowing the company to continue to grow and stand tall amongst their competitors...
